LANGUAGE KNOWN

English, Hindi and Gujarati

PROJECTS

Insight (Web and Mobile Application)

Accord Health Care Global, Intas Pharma

This application is a business analytics tool embedded with Power BI predictive analysis reports which are useful on a daily basis for organizations to achieve in their strategic plans. Dashboard capabilities within Analytics Platforms also ease decision making for management users by visually presenting facts of business coverage / status in different regions / areas.

Environment: Asp.Net 4.0, Web Service, C#, SQL Server 2019, SSIS, SSAS, SAP BODS, PowerBI

Role: Sr. Developer

Foresight (Web Application)

Intas Pharma

This application includes Product Details, Sales trend, Forecast Analytics and Forecast Summary. User can select Forecasting (Linear Forecast, Average Forecast) method.

Environment: Asp.Net MVC, Web API, C#, SQL Server 2019, PowerBI

Role: Sr. Developer

Workmate.Net (Desktop, Web and Mobile Application)

Newzeland Clients

This application is based on a daily schedule and plan work into the future, track breakdowns and faults. Manage and upload drawings, documents, photographs associated with plant items and track where costs are occurring. This information application enables you to produce reports that will display the detail of activities in a logical and simplistic format to enable the most efficient management of equipment that you are responsible for.

Environment: Asp.Net 4.0, WebApi, C#, SQL Server 2008 R2, Crystal Report 13

Role: Sr. Developer

Integrated Access Control System & Men Management System (Desktop and Web Application)

Government of Gujarat, Sachivalay, Gandhinagar

This application analyzes the data of gate entry/exit with annual reporting system for all sachivalaya, visitors & non-sachivalaya employees. This system is based on Smart Guard TCP/IP Reader Application. Every employee has to swipe the smart card on the reader so as to consider their daily Entry/Exit and stores that into the database server. Through ASP web application, it will display the reports as per the requirement.

Environment: Asp.Net, SQL Server 2000, Crystal Report 9.2, Smart Guard TCP/IP Reader, Schlumberger 1Kbps Mifare Contact less card.

Role: Developer

Online Scheduling and Reporting Service (Web Application)

Private Client

This application is a powerful, user friendly, web-based tool. With this app, user can connect projects, tasks, conversations, prioritizes of projects, status of projects, resources, portfolios, employee details, stock inventory and information are managed appropriately. Also include online employee attendance system etc.

Environment: Asp.Net 3.5 with C#, SQL Server 2008, HTML, CSS, AJAX, Crystal Report 11.

Role: Developer

Club Management System (Desktop Application)

Rajpath Club Ltd. Ahmedabad

This system starts its operation right from the entry of the member in the premises. When the member swipes his card for the utilization of various facilities and services like Table tennis, Billiards, Badminton, Swimming, Restaurant, food court etc. the software will make a record of all transactions made. Member's data and transactions data are stored on the card or sent to the local and central database.

Environment: VB.Net, SQL Server 2008 and Crystal Report 11, ACR-38

Role: Developer

Visitor Management System and Reporting Module (Desktop and Web Application)

Troikaa Pharmaceuticals Ltd

This project includes the detail monitoring for the incoming visitors and also gives the reporting of the employees working hour there on daily and monthly basis.
